NAME: James Brayden

Working practices and legislation

4.1 (pt 2) Demonstrate good health and safety practice when working on film productions

How will/did you apply good health and safety practice when making your film?	Make sure that the space you are working in is safe with no hazards. Make sure everyone is aware of dangers. Make sure no one is under the influence of alcohol or drugs.
Add your risk assessment and explain why this is important.	A risk assessment is important because then you have a clear understanding of what you must do and what to look out for on set.
